

Amendments to the Claims

1-15. (Cancelled)

16. (New) A method for controlling flies, comprising contacting the flies with chlothianidine or a salt thereof having an affinity for a nicotinic acetylcholine receptor of insects, wherein said chlothianidine or the salt thereof is sprinkled or sprayed in a livestock pen or a poultry house.

17. (New) A method for controlling flies, comprising contacting the flies with chlothianidine or a salt thereof having an affinity for a nicotinic acetylcholine receptor of insects, wherein said chlothianidine or the salt thereof is applied to the inside of a livestock pen or a poultry house.

18. (New) A method for controlling flies, comprising contacting the flies with chlothianidine or a salt thereof having an affinity for a nicotinic acetylcholine receptor of insects, wherein a poisoned bait containing said chlothianidine or the salt thereof is placed in a livestock pen or a poultry house.
